📂 PROJECTS

Color Scheme Generator 🡥

This project can be used whenever we need color scheme for our new projects
This makes an API call and gets the data based on user inputs.
User can choose the color from color picker and also the modal they need.

Waifu Chrome Extension 🡥

This project can be used as a personal dashboard in chrome as an extension.
This app makes multiple API calls to differnt API's and get random anime waifu image and
also gets random anime quote whenever a new tab is opened or a tab is refreshed.
This app also shows the weather condition according to the user's location.
